

EZ-BD EASY BYPASS DAMPER

IT DOES NOT GET ANY EASIER THAN THIS!

EZ-BD is a constant pressure regulating bypass damper used in forced air zoning systems to relieve excess static pressure.

- ✓ Extremely easy to install and set
- ✓ No external regulator or weighted arm
- ✓ Can be installed vertically or horizontally
- ✓ Gasketed blade
- ✓ Available in 8", 10", 12", and 14"
- ✓ Low cost
- ✓ Made in USA

This bypass has been factory set at 0.4" W.C. and should not need to be adjusted for most residential applications.
