

MOTOR-LED INSTALLATION SHEET

Belimo 3-Wire Damper Actuator LED Board

INTRODUCTION

The MOTOR-LED actuator LED add-on board is designed to provide LED indication for Belimo 3-wire actuators.

DESCRIPTION

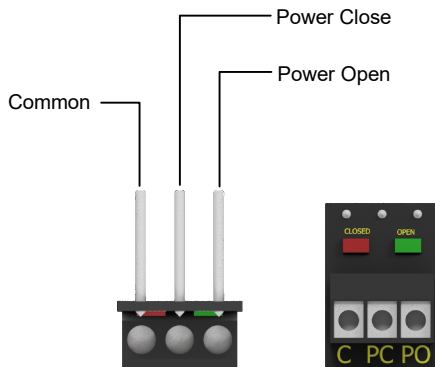

On Belimo 3-wire actuators, the terminal designation will go as follows:

C

PC

PO

This will be stated on the both the face of the actuator and the LED board.

INSTALLATION

The 3 pin header will line up with the terminal strip built in to the Belimo actuator. Insert the pins into the terminal strip and tighten down the screws until snug. The 3 wires from the zone panel will wire into the terminal strip on the LED add-on board.
