

Enhance the way your customers experience comfort.

With SmartSensor placed in multiple rooms, your customers can set an average temperature for their home and experience better comfort throughout.

SMARTER COMFORT

Helps manage hot or cold spots by setting an average temperature, keeping your customer's whole home comfortable.

HEIGHTENED SENSES

Detects occupancy, allowing for room-specific comfort where your customers want it, when they want it.

FURTHER SAVINGS

Signals the thermostat to start saving when your customer is not home, keeping their energy bill in check.
